Live run against the active Chrome tab. Dummy values only. **Continue was not clicked.**

- Tab: 1807951524
- Page: [Call for Speakers · CES 2027](#)
- Filled as: Demo Agent / demo@example.com

Each step: the command, the snapshot listing, then a viewport screenshot (`chrome.tabs.captureVisibleTab` — not the full page).

0. Starting state

The second radio was already selected from the previous click (`I'm submitting on behalf of someone`). Name and email were empty.

The screenshot shows a web form titled "Are you the speaker?" with the subtitle "If you're submitting on behalf of someone, we'll capture your details separately." Below the title is a warning box: "Before you start: All submissions go through a review process. Submitting this form does not guarantee selection, and final session topics, formats, and lineups are subject to change. We'll follow up by email either way." The form has two radio buttons: "I am the speaker Submitting for myself" (unselected) and "I'm submitting on behalf of someone PR rep, assistant, partner, or colleague" (selected). Below the radio buttons are two text input fields: "YOUR FIRST NAME" (containing "Demo") and "YOUR LAST NAME" (containing "Agent"). Below these is a "REQUIRED" label and a "YOUR EMAIL" text input field. At the bottom of the form is a checkbox labeled "I confirm the speaker is available for CES 2027 dates (Jan 6–9, 2027)". The form is set against a dark blue background. At the bottom of the page, there is a "Back" button, "Step 1 of 6", and a "Continue →" button. Footer text includes "CLOSES SEPT 9, 2026 · 11:59 PM PT", "PRIVACY", "TERMS", and "CONTACT".

3. Type email

```
browser-session-ctl type e6 demo@example.com
```

```
Result: { "ref": "e6", "value": "demo@example.com" }
```

```
browser-session-ctl snapshot
